

## Commerce Centre Glazed

The Ezial Centre Glazed System is a popular choice among our range of Commerce Architectural Glazing Systems. Offering supreme weather durability – thanks to Ezial's Ezi-Seal technology – as well as self-draining sill and transom designs, insulation and noise reduction, it's plain to see why. This system is also extremely versatile and can adapt to accommodate a wide variety of mixed combinations with other Ezial systems, including sliding doors, windows, louvres, and infill panels. Our strong extruded profiles are capable of producing generous spans of up to three metres with ease, making provision for large, unobstructed panoramic views, ideal for shopfronts and architecturally-designed commercial buildings.

### FEATURES & BENEFITS

- Reduced labour costs with the use of a captive wedge
- Simple and efficient fabrication with the use of straight cutting
- Self-draining sill and transom designs for enhanced water management
- Ezi-Seal technology for effective insulation, acoustics and weather durability

## PRODUCT OPTIONS

- Sub-framing for exposed areas
- Adaptability – can combine with various systems across the Ezial product range
- Can be incorporated as highlights, lowlights and sidelights
- Single or double glazing with the use of an adapter

## WINDOW ENERGY RATING - TOTAL WINDOW AFRC

Window ID	Glazing	Uw	SHGC	Tvw	Air Inf.
EZI-003-03	6mm Clear	6.0	0.75	0.80	0.05
